cut and powder coated
the stars.

RICK TURNER, *Director of Adult Education Programs* ~

First night of winter quarter kicks off for many Adult Education programs including MET, MIT and Welding. Here students unpack their supplies and check out the tools they will be using in their respective programs.

It was a full house for the first night of Phlebotomy class!

Ottawa LPN students in the patient simulation lab; nearing class completion.

LPN student, April Burden, is awarded a \$1,000 scholarship from First-Federal Bank by Lisa Brackney, Program Manager. April is also an Apollo STNA graduate and always knew she wanted to be a nurse. April's husband has had multiple back surgeries and they have three children. She says this scholarship will be a tremendous help!

Medical Assisting student, Amber DeLashmutt, of Spencerville is awarded a \$1,000 scholarship from Sidney Electric Company. Amber will graduate in June of 2017 and was inspired to enter the field of healthcare after her own health experiences. Her ultimate goal is to become a healthcare educator.

Amber, pictured above, was also awarded a \$1,000 Rotary Scholarship as was LPN student Michelle Weiford who could not participate in the luncheon as she was attending class.

Ada Winget is our most recent ABLE/GED graduate. Ada attended our classes at Ohio Means Jobs. She felt so positive about her experience, she spoke about the program in the latest TV public service announcement. She says the key to a successful completion is having a strong support system.

BRUCE JOHNSON, *High School Instructional Supervisor ~*

Construction and Equipment Technology students are laying block in the Adult Education building.

Health Science
HOSA/Blood Donor Day
through the American
Red Cross was held on
December 21.

PAM DOWNING, *High School Instructional Supervisor* ~

Academics:

The Science team attended the national science educators' conference in Columbus. Pictured are Natalie Stuttler, Chemistry and Linda Brown, Anatomy and Physiology and Biology. They are participating in the dissection of a fetal pig.

Angie Carver: Students created posters representing their first or last name and incorporated five math symbols into the poster. On the back of the poster they were required to tell me what the symbols were and how they are used.

Timothy Whitaker

Haley Birkemeir

Crisis Tigner

Satellites:

Keith Rambin's students with their robotic creations.

Cafeteria: Shelly Caudill, Manager

The cafeteria continues to look for new items that will appeal to students. Newly introduced items include a Chicken Parmesan Sandwich. A Chicken Pizzaiola Sandwich will be offered in February.

December Numbers:

Lunches Served:

2,563 FREE

1,065 REDUCED

2,799 PAID

6,427 TOTAL LUNCHES

Breakfast Served:

540 FREE

118 REDUCED

70 PAID

728 TOTAL

Fresh veggie cups are available for students.

Mary Fiedler and Julie Thomas both passed their ServSafe tests and received Level 2 Certification. This now makes all direct food workers certified.

Late and Missing book Recovery:

Media Center support staff member Sheryl Maier implemented a new strategy for recovering late and missing books from the Media Center. She emailed each student who had an overdue book through Schoology. The response was really good. She even had a few students email her back that they left it at home and would bring it tomorrow or that they would stop by later in the day to renew. Most simply just showed up to renew or return. She and Lila were both impressed. Way to go!

James Hilty, SES2, Allen East was our big winner for November. He won a Subway gift card.

Fusion: Advisors: Darla Krites and Courtnee Morris - In December, Apollo Fusion sponsored a cornhole tournament. Eighty student teams and 12 staff teams participated.

Courtnee Morris and Rick Mack were the winning staff team. Justin Vorhees and Ryan Snyder both carpentry students were the winning student team. The student team was the overall tournament winners as they beat the staff team.

Student Council: Advisors Hannah Dickey, Jay Herbst, Vaughn Ray, and Nick Sammetinger

Kennedy Osting,
Columbus Grove,
Cosmetology, selling
Candy Grams.

We sold 400 candy grams and made around \$130. We raised money to buy and donate candy canes to Shawnee Manor. Student Council spent about 30 minutes at Shawnee Manor visiting residents and delivering candy canes.

JAMIE BUELL, *High School Instructional Supervisor* ~

Adam Carver, Shawnee senior in Automated Manufacturing Technology, made the news! He is representing Apollo while participating in Allen Lima Youth Leadership this school year.

Students took the End of the Year Course Exams at Apollo in December. The students need to receive a total of 18 points on the tests in order to meet graduation requirements.

The Shawnee Optimist Club recognized seniors from Apollo, LCC, Perry, and Shawnee for the Honors and Achievement Award at an awards banquet at the Old Barn Out Back in December.

Eight of the twenty students nominated for the Shawnee Optimist Honors and Achievement Award were students at Apollo! Three were nominated by Perry.

Students from Apollo were nominated for the Shawnee Optimist Honors and Achievement Award from left to right:

Jessica Stanley – Wapakoneta senior in second year of Cosmetology

Bethanie Stalnaker – Columbus Grove senior in second year of Cosmetology

Adam Carver – Shawnee senior in second year of Automated Manufacturing Technology

Alyssa Vore – Ada senior in second year of Sports Fitness & Exercise Science

Hannah Dunahay – Bath senior in second year of Health Science.

ROY GILLESPIE, *Facility Manager* ~

- The Automotive Technology's class has been doing winter preventative maintenance on our vehicles.
- The Maintenance Department has completed 53 work orders for the month of December and 21 so far for the month of January not including preventative maintenance work orders.
- The Safety Committee Meeting for December was held on the 20th. Topics for December's meeting included accident reports, 2017 Safety Council Meetings, BWC's Christmas Safety Guide, SWAT-T Tourniquets, new Safety App for staff/students, and knives in schools.
- We had back flow inspections, fire systems testing, fire extinguisher tagging, sprinkler inspections and fire suppression testing completed over Christmas break. We also had roofers, electricians, plumbers, millwork/technology/controls contractors working over break to complete project punch list items. The maintenance/custodial staff worked on several projects over break including PM's, HVAC work, millwork in Adult Education, stripping/sealing commons floors, carpet cleaning, among other projects.
- We had our last project inspection with the city of Lima on January 4th for the extra kitchen.
- I am doing our yearly tour with Shawnee Fire Department on January 11th to review system shut-offs, confirming Knox Box items, reviewing evacuation maps, and other items relating to fire emergencies.
- We are still working with Wadsworth finalizing the control system. Judy, Touchstone, and I met with them over Christmas break and set a deadline of January 20th for everything to be completed. We still do not have control of several of the buildings, many lighting issues continue to occur, we don't have the Energy Efficiency Dashboard that was specked in the project, and we have had continuing issues with air handlers shutting down in cold temperatures. To their credit, they respond fairly quickly when we have issues but the overall timeline of completion has been slow and there has been many bugs in the systems.
- Garman/Miller notified us on January 10th that we had achieved LEED Gold for project energy efficiencies. This is a great accomplishment for a renovation project. The initiatives we put in place to achieve the Gold standard will help us save energy dollars for years into the future.
- We have contracted Alexander and Bebout to install an additional overhead door at our "BAF" building that will become a bus garage. We have some walls to take down inside the building but it will be good to have a permanent place to store busses during the winter.

Our great custodial crew stripping and re-sealing the commons floors.

DICK SCHROYER, *Technology Manager* ~

Technology Services Update – Through Wednesday, 01/12/17

Technology Services Activities -

Updates over Holiday Shutdown

- Updated all Windows 10 laptops with Anniversary Edition Update
- Updated all QuickBooks to 2015
- Updated and re-booted entire wireless network * see below *
- Applied new configuration changes to backup system
- Applied service updates and re-booted all Windows Servers
- Applied startup changes to multiple staff PC's
- Worked with contractor (Netech/Presidio) to install additional door entry hardware and software at east door of Adult Ed
- Worked with multiple contractors to complete project-related tasks
- Worked with SecurCom on quotations for additional camera locations (both indoor and outdoor)

Wireless Network Update

- The update mentioned above has caused issues with being able to connect to and receive adequate bandwidth on our wireless network for several days. We are currently working with NOACSC, who is in contact with Aerohive to find a resolution for this problem.

Telecommunications Rooms – Final

- In addition to the work listed above, we also visited each of our network communications closets (TR's) over the holiday shutdown period to perform battery backup system testing. We have cleaned each of these, and I am starting to call them 'done' as far as the construction project is concerned. We are extremely proud of our base network infrastructure; I feel it is one of the highlights of the project.

Cable Pathing and Entry

Cable Management

Rack and Patch Panel

Labeling and Documentation

Surge Protection/Power Stability

Proper and Consistent Grounding

DANA DUKES-NORTON, *District Communications* ~

Since July, I have been working with CorpComm and have been using Google Analytics. The last two weeks have been dedicated to learning WordPress, to create a new look and traffic flow for the high school web site. WordPress is an open source tool that is customizable, secure, and very user-friendly.

The migration of 60 plus pages from our old site is in the final stages of editing and proofing. In the long run, it will save Apollo money as there is no actual programming or static content. It is all editable internally.

This is the proof site that I am hoping to go live with on January 13.

Apchs.ccgproof.com

This is still in the proof stage, but I think it is a marked improvement to the current high school site. No changes have been made to the district site as of yet.

I have also been working on the All Area Boards Dinner, ApolloPalooza, and the daily items that I take care of. In addition, I have completed two projects for the Apollo Educational Foundation.

If you have any questions, concerns, or suggestions, please feel free to email me.
