
DOUG BODEY, *Director of High School Programs* ~

411BLAST was held on
January 26.

TASHA SHEIPLINE, *Director of Adult Education Programs* ~

We have kicked off our weekend Warrior Series. Our first class, DIY Plumbing, had 14 people attend.

Our Light Commercial Residential Construction finished out the program with a bench project.

Fire and Police Training have been going strong. We will be welcoming a new Public Safety Manager, Jeff Orphal.

Tara Shepherd, Tasha Sheipline, and Judy Wells attended the 2025 Attainment Luncheon at the Ohio State House. The objective was to present data to state experts to help get feedback from various agency representatives.

BRUCE JOHNSON, *High School Instructional Supervisor* ~

Kyle Shoffner, a Building and Renovation senior from Bath, is running the floor cleaner in the Commons.

Senior welders in Mr. Pollock's class are learning to program Yaskawa robotics.

Mr. Wise and the Building and Renovation students have started on the project house.

Automated Manufacturing Technology students are practicing their skills on the cut-off saw and the mill.

JAMIE BUELL, *High School Instructional Supervisor* ~

Lima Noon Optimist recognized youth in our area for Youth Appreciation Week! Three Apollo students were among the group of students recognized (Katherine Johnson, Kristen Johnson and Emily Prinsen).

Kristen and Katherine Johnson, twin sisters from Bath in their second year of the Administrative and Medical Office Technology program, were nominated by Apollo to show our appreciation for what they do in helping out at various events at Apollo and being good role models for other students in the community!

411Blast Day turned out great! Over 700 students visited our campus and many of them are completing the online applications every day! Currently, we have over 300 online applications! We are looking forward to receiving more applicant information on Initial Enrollment Day, which is February 13!

NICK SAMMETINGER, *High School Instructional Supervisor ~*

Sports Fitness and Exercise Science

(Jody Benda)

These senior students are preparing for their HOSA competitions by practicing many skills they have learned in the course. Students are taking pulse and blood pressures.

HOSA – Parliamentary Procedure Team

(Coach - Nick Sammetinger)

The parli pro team is practicing for the regional HOSA competition. This year we have some new faces. However, our goal is to repeat as International Qualifiers. Also, as a team this year we plan to win state and place at Internationals. Team members include: Skylar Gutman (President), Kylie Archer (VP), Nicolette Wuest (Secretary), Sierra Gilroy (Treasurer), Eliza Avery (Committee Chair), Autumn Martin (Team Member), and Thapthida Southibounnorath (Team Member).

411 Blast – Hands on Day

(Carrie Prince, Jody Benda, Megan Conner, Courtnee Morris, Diana Malone, Sheryl Diglia, and Jessica Sanders)

Apollo Career Center instructors engage sophomores from our associate schools to recruit for their programs. Area sophomore's had a lot of fun and were able to experience two programs throughout their day.

DANA DUKES-NORTON, *District Communications Manager* ~

Dana Dukes Norton/Allison Overholt

- Continuing work on the Adult Ed web site.
- All Area Boards dinner coverage.
- Setting up an on-line ordering system for staff and student spiritwear website updates.
- Video shoot coordination and execution.
- Created library flyer.
- Created Facebook content, scheduled, and monitored.
- Uploaded new videos to YouTube and Pinterest.
- Created short video promoting industrial, engineering, and trade classes.
- Coordinated high school and adult education for the Mike Miller and Noon edition spots.
- Coordinating with partners on articles for the next IChoose News and booths for ApolloPalooza.
- Continued strong presence on social media.

Media Center- Sheryl Maier/Lila Whyman

- We have had 285 students, 4 classes, and 69 student assists (additional help finding materials, tech help, etc.).
- Currently have 183 books signed out.
- Created Goare PowerPoint for All Area Boards Banquet.
- The Media Center is having “Blind Date with a Book” Contest again. Winner will received two movie tickets.
- Caleb Bucholtz, PG1 was the January AR winner. He received a \$15 Walmart gift card.
- New shipment of books processed.
- Front sign, Facebook, website updates.
- 30 Staff assists (technology help, finding resources, co-teaching, etc).
- Make-up Professional Development sessions were scheduled and held with Ethan Martin.
- Oculus Rift – Diggers: Trench Experience - was used with social studies students completing a unit on World War I.
- Demoed Oculus Rift to all staff with ideas for use in various programs and academics.
- Collaborated on district-wide Winter Olympics activities. Created a ‘Fantasy Olympics’ activity for staff and students.
- Using ‘The Climb’, an Oculus Rift program, for a district-wide Olympic challenge.
- Created a ‘Speed Dating’ book activity for English teachers.

Cafeteria – Shelly Caudill/Carla Blymyer

Lunch:

FREE: 2994

REDUCED: 1179

PAID: 3329

TOTAL: 7502

Breakfast:

FREE: 554

REDUCED: 97

PAID: 68

TOTAL: 719

Three two-hour delays and two cancellations caused the numbers to be lower than normal.

The freezer has not been repaired with original parts. We are still waiting on parts to come in. The parts were fabricated and the freezer is working, but we have had Smith Boughan out several times to continue to repair.

ROY GILLESPIE, *Facility Manager* ~

- I completed the driving testing for my bus recertification training so my license is good for another six years. Transportation Supervisors are required to hold a Class B license in the State of Ohio. I only drive a bus a few times per year, so it took some time for me to practice and re-study to pass all the recertification training.
- We have received a number of quotes for office trailers for the truck driving range. Judy, Tasha, and I are planning a trip to Cincinnati to look at a unit we like from pictures and a quote from Mod-Space. I have spoken to the City of Lima, the Sanitary Engineer, and the Waterworks Department about what they will require from us to install the trailer, hookup sanitary for a restroom, and tap into existing water lines. Each department needs a sealed set of basic drawings, but the permitting will be either low cost or free. We are going to try to tie into a sanitary that was capped from the house we tore down on Breese Road a number of years ago and tie into a hydrant line that is near the range for water. We also would like to use our construction classes to do the excavation work and install footers/piers to secure the trailer on site. We have hired Frank Razinger to prepare and seal drawings for us. Frank has done some low-cost drawings for us in the past and does a good job on smaller projects like this.
- As we do every February, we are preparing our summer maintenance/cleaning schedule to give administrators so we avoid any scheduling conflicts and so they can get summer work requests into me for planning.
- We are working with our CAD class to get a site drawing for the location of the road we would like to install this spring from Breese Road and run through our truck driving range. Judy has spoken to the Allen County Engineers about this project, and they have requested this basic drawing before giving us the okay to proceed. We put together an estimate of roughly \$35,000 for stone, concrete at the Breese Road entrance, compacting, etc.
- We installed some new LED flood lighting on the east side of the Lowry Building to help light up the adult fire training area. We are also looking into installing a sidewalk from the Lowry Building to the fire-training site due to Public Safety classes walking back and forth between the two areas.

DICK SCHROYER, *Technology Manager* ~

Technology Services Update – Through Wednesday, February 7, 2018

Technology Services Activities –

- We have spent significant time recently working with Pearson / VUE Tech Support on nagging issues with the VUE Test Center software and testing stations. VUE (Virtual University Enterprises) is a suite of test center software that Apollo offers for credential testing for a number of different business applications. We are working on a variety of ways to better prepare for testing sessions and customer support of this system.
- We are wrapping up multiple technology updates in the recently completed classrooms, labs, and another office in the Lowry Building. Multiple programs should benefit from these new areas and the updates – new projectors, PC's and teacher stations.
- We will be working the upcoming President's Day – Monday, February 19, 2018. In addition to the normal network updates and shutdown we do on these types of days to apply service, we will be working with Sidney Electric on issues in the Paging and Central Sound system. We will also be working with Securcom to continue cabling fixes for our classroom projectors.
- We have been working with Current Office Solutions on a change-over of copier service and supplies. They were introduced to us by Maria, as they had the service contracts where she worked previously. To this point, they have done a nice job of coordinating the changes and have also repaired a couple of older HP printers for us. This will allow us to extend the life of these units well into the future. We will be talking with them on our upcoming printer service and supply contract which is due this summer.
